Anuj S. Apte

(617) 949-0154 • 6200 S Evans Avenue, Chicago IL • apteanuj@uchicago.edu

EDUCATION

UNIVERSITY OF CHICAGO **GPA: 4.0/4.0**
Candidate for Ph.D. *September 2020 - Current*

MASSACHUSETTS INSTITUTE OF TECHNOLOGY **GPA: 4.9/5.0**
B.S. in Physics and Philosophy with minor in Music and Mathematics *August 2016 - June 2020*
Selected Coursework: Quantum Information Science · Quantum Computation

RESEARCH EXPERIENCE

MICHELSON CENTER FOR PHYSICS Chicago, IL
Research Assistant to Prof. Clay Cordova *July 2020 - Current*
- Studied the physics behind Topological Quantum Computing
- Currently investigating Spin-TQFT's and the associated Tensor Categories

DEPARTMENT OF NUCLEAR SCIENCE AND ENGINEERING Cambridge, MA
Research Assistant to Prof. Mingda Li *February 2019 - June 2020*
- Studied Kohn anomalies in Topolgical Weyl Semi-metals using QFT
- Characterized behaviour of Semi-metals via spectroscopy at Oak Ridge

KU LEUVEN INSTITUTE FOR THEORETICAL PHYSICS Leuven, Belgium
Research Assistant to Prof. Joseph Indekeu *May 2018 - Aug 2018*
- Studied wetting transitions in superfluids using holography

KAVLI INSTITUTE FOR ASTROPHYSICS Cambridge, MA
Research Assistant to Prof. Scott Hughes *Dec 2016 - Feb 2018*
- Devised a framework to calculate inclined inspiral trajectories into Kerr Black holes
- Implemented a code to numerically compute inspiral trajectories

SELECTED PUBLICATIONS

- Topological Signatures in Nodal Semimetals through Neutron Scattering Arxiv:2101.04046
  To appear in Physical Review B
- Topological Singularity Induced Chiral Kohn Anomaly in a Weyl Semimetal PhysRevLett.124.236401
  Physical Review Letters Editor's Suggestion for June 2020
- Learning about black hole binaries from their ringdown spectra PhysRevLett.123.161101
  Published in Physical Review Letters October 2019
- Exciting black hole modes via misaligned coalescences: PhysRevD.100.084031
  I. Inspiral, transition, and plunge trajectories using a generalized Ori-Thorne procedure
  Published in Physical Review D October 2019
- Exciting black hole modes via misaligned coalescences: PhysRevD.100.084032
  II. The mode content of late-time coalescence waveforms
  Published in Physical Review D October 2019

PROFESSIONAL ACTIVITIES

- Poster Presentation at conference 'Topological Quantum Matter' KITP, Santa Barbara
- Participated in STAQ Quantum Ideas Summer School Duke University, Durham
- Participated in the Third ERC (HoloBHC) Solvay Workshop on Holography ULB, Brussels
- Talk at APS 2018 April meeting held in Columbus, Ohio APS Presentation
- Invited outreach talk: 'Physics in Everday Life' SRM University, Chennai

HONORS AND AWARDS

- Awarded **Nambu Fellowship** for being the highest rated applicant to the Ph.D. Program
- **Phi Beta Kappa** inductee from the Class of 2020
- **Gold Medal** in Asian Physics Olympiad 2015
- **Silver Medal** in International Physics Olympiad 2015

SKILLS

- Computer Skills: Mathematica, Python and C++ programming
